RHODE ISLAND WORLD DIABETES DAY

MISSION

To positively impact the growing diabetes epidemic in the state by building a coalition of community members who work toward reducing the burden of prediabetes and diabetes in Rhode Island.

HISTORY

Rhode Island World Diabetes Day (RIWDD) was launched through the Rhode Island Department of Health (RIDOH) in November 2012 to raise awareness about diabetes and its impact on the residents of Rhode Island. This event highlights the strong collaboration between the many community organizations, government officials, health partners, and community members who are committed to decreasing diabetes in Rhode Island. Thanks, in part, to the generous support of our sponsors, the event has grown significantly each year. Due to its growing success, the RIWDD Board of Directors has been able to donate proceeds from the event to several charitable health organizations throughout the state. This year the RIWDD Board of Directors will donate proceeds to a non-profit organization that has demonstrated dedication to the promotion of health and wellness for people living with diabetes and/or the provision of quality medical care to uninsured, underinsured, or homeless individuals to treat and prevent diabetes and its complications.

2022 RHODE ISLAND WORLD DIABETES DAY WILL BE LIVE! RIWDD.ORG

The RIWDD Planning Committee has planned a morning of interesting, dynamic presentations for Monday, November 14, 2022, at the Crowne Plaza Hotel in Warwick, RI.

ATTENDEES

Anticipated attendance to include physicians, physician assistants, nurse practitioners, Certified Diabetes Outpatient Educator nurses, dietitians and pharmacists and other allied health professionals. CME credits are available.
